Artist Introduction

Engaging, warm and compassionate creative who cheers for the underdog and believes in the transformative power of art. As a community taught artist, my creative perspective is valuable because of the paths I've chosen to trust. We are often taught that we must choose one path and stay on it and for me, I believe in empowering people to trust themselves. My previous path informs my creative perspective.

Education

BA Classics & Latin
SUNY Albany//Loyola University Rome Center

Professional Experience

January 2024-Present-Art Teacher, Bishop Kelley High School, Tulsa

April 2022-Present—Artist

A full-time visual artist with a practice in Tulsa, Oklahoma. In March of 2020, I found painting and as the world shut down, experienced the transformative power of art and it changed me. I began a vigorous practice of art that includes group shows, commissions and solo shows, the most recent solo show, un|constricted is currently on view at the Price Tower in Bartlesville. My work explores the notions of gender equality and personal truth through a contemporary figurative lens. In addition to my daily art practice, I created Carson House Tulsa. Carson House Tulsa is an evolving space, based on a desire to bring community together through art, poetry, yoga and kindness. We offer individual short term residencies for up to two artists at a time, and have small community workshops and gatherings with the purpose of supporting those practicing arts within Tulsa.

8/2006 to Present

Owner/Broker Anne Pollard & Associates, LLC

Created a commercial and residential real estate brokerage business in 2006, working primarily for the revitalization of downtown Tulsa and the surrounding urban neighborhoods. My goal was to protect and invest in the historic neighborhoods that make Tulsa the uniquely rich, and vibrantly diverse city, that is expressed through its core architecture. This work began by purchasing individual depressed properties and renovating them. It was that work that led to the formation of my brokerage. I began serving on the Preservation Commission and built my business based on the investment of our core city. I was engaged by George Kaiser Family Foundation (GKFF) and eventually worked primarily with GKFF managing historic preservation assets in the Tulsa Arts District. My work included all aspects of property management, facilities management, historic tax credit reporting, leasing and landlord/tenant liaisons, but most importantly was navigating the spaces between the missions of GKFF and the practical components of the tenants that helped fulfill the vision. I worked directly with GKFF's leadership team and my work included all functional management of 200,000 SF+/- of historic Tulsa properties.
